CONSTRUCTION NOTICE

NYS Route 8 over Genesee Street Village of New Hartford NY Village of New Hartford, Oneida County

Dear Business Owners,

The Department of Transportation is about to begin work on the \$2.8M rehabilitation of the NYS Route 8 Bridge over Genesee Street in the Village of New Hartford. The Department has contracted with Vector Construction Corporation of Cicero, New York to perform this work.

The rehabilitation project will involve replacing the bridge deck with a precast concrete bridge deck system. The precast bridge deck elements will be linked by a UHPC (Ultra-High Performance Concrete) product which will provide a high-strength connection and accelerated cure times. Use of these products offer a highly durable result at a much quicker pace than other methods of construction.

On Friday, August 17, 2018 at 6PM and continuing through August 21, 2018 6AM, a three and a half-day FULL road closure will take place to allow for the demolition and safe installation of the new bridge deck for the NYS Route 8 Bridge over Genesee Street Bridge. Signed detours will be utilized to advise motorists of the road closures and direct traffic to the appropriate detour routes.

Preparatory construction activities are scheduled to begin taking place the week of **July 23, 2018**. Work will be carried out between the hours of 7:00AM and 5:00PM Monday through Saturday.

Construction activities will include but not limited to the following:

- Establishing work zones
- Establishing storage and staging areas adjacent to work zones
- Installing lane closures on Route 8 N&S for preliminary bridge work on July 23, 2018

Please be assured that we are working hard to minimize construction impacts. These accelerated construction methods are being used to expedite construction completion and reduce disturbance to the traveling public. Crews will work around the clock during this FULL road closure to return the bridge to service.

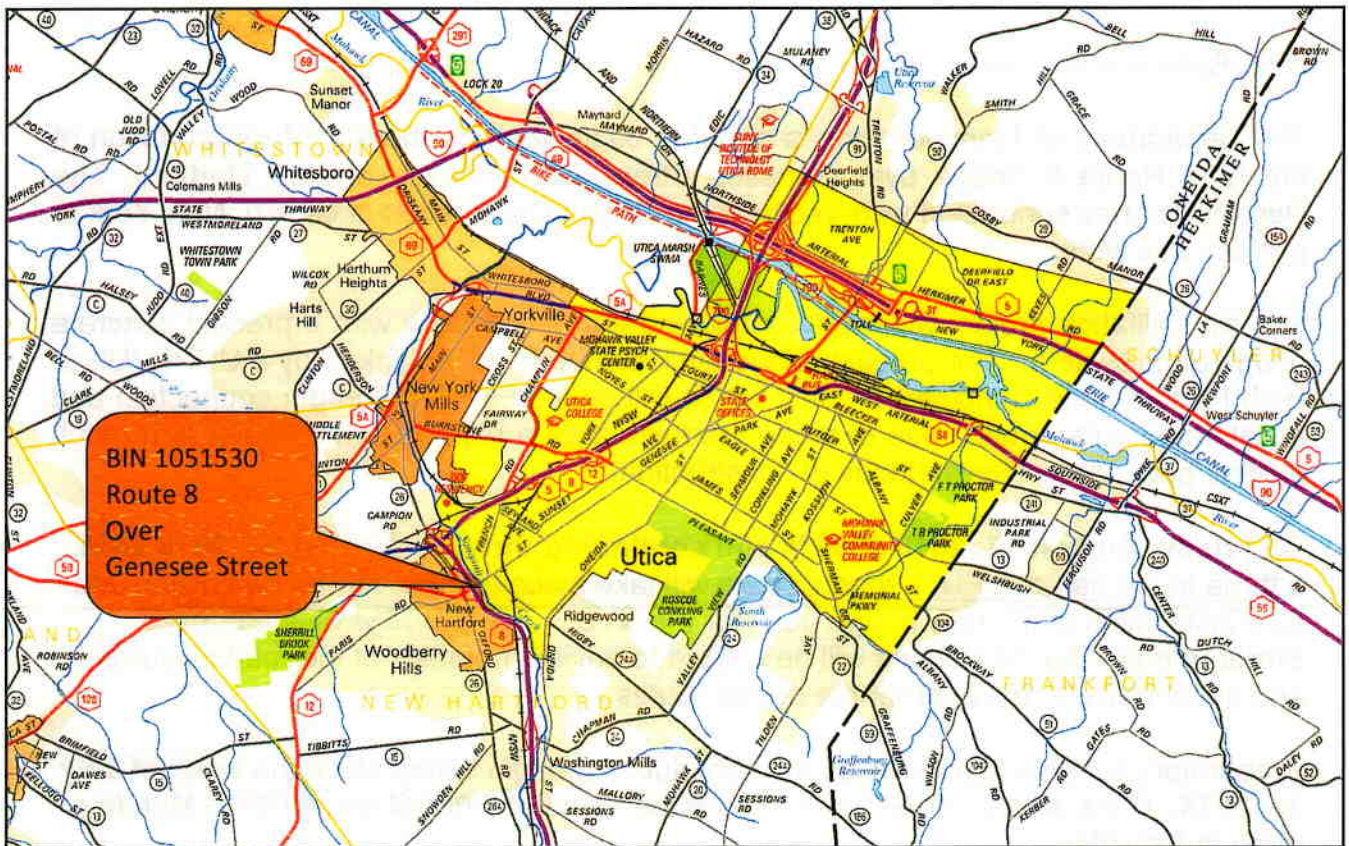

We will be happy to address any questions or concerns you may have. Please see contact information below for questions or additional information.

Respectfully,

Robert Stanhope – Robert.stanhope@dot.ny.gov, Engineer-in-Charge 315-427-0777

Mike Murphy - Michael.murphy@dot.ny.gov, Construction Supervisor 315-793-2475

Jim Piccola Jr.- Jim.piccola@dot.ny.gov, Public Information Office 315-240-6141
